FLORIDA DEPARTMENT OF INSURANCE

[illegible]

[illegible]

OFFICE OF THE TREASURER
DEPARTMENT OF INSURANCE
he Capitol, Tallahassee, Florida 32399-0300

TOM GALLAGHER
TREASURER
INSURANCE COMMISSIONER
FIRE MARSHAL

July 1, 1990

The Honorable Bob Martinez
Governor
The Capitol
Tallahassee, Florida 32399-0001

Dear Governor Martinez:

In accordance with Chapter 624.315, Florida Statutes, I am pleased to submit to you the Annual Report of the Department of Insurance for the Fiscal Year July 1, 1989 to June 30, 1990.

Respectfully submitted,

Tom Gallagher
Treasurer and
Insurance Commissioner

TG/rr

Affirmative Action/ Equal Opportunity Employer

REPORT OF THE DEPARTMENT OF INSURANCE
STATE OF FLORIDA

GIVING THE NAMES OF INSURANCE COMPANIES AND FRATERNAL BENEFIT SOCIETIES AUTHORIZED TO DO BUSINESS IN FLORIDA WITH A STATEMENT OF THEIR FINANCIAL CONDITION AND TRANSACTIONS IN THE STATE OF FLORIDA FOR THE YEAR ENDED DECEMBER 31, 1989

ALSO

ENTRIES AND WITHDRAWALS FROM JANUARY 1 TO JUNE 30, 1990 INCLUSIVE

TOM GALLAGHER
TREASURER
INSURANCE COMMISSIONER
FIRE MARSHAL

REPORT BY TREASURER TOM GALLAGHER

The 1990 Legislative Session was a successful and challenging one for the Department of Insurance. The Department successfully sought a number of legislative changes strengthening the regulatory responsibilities of the Division of Treasury, the Division of State Fire Marshal, the Division of L.P. Gas and the Department of Insurance. These successes included the reenactment of Chapter 626 - Agents Licensing, the State Comprehensive Health Association, and Bail Bondsmen and Runners, which were under Sunset; legislation relating to auto task force recommendations, workers' compensation and the healthy kids act.

This is a brief summary of significant legislation affecting the departments' regulatory responsibilities. For additional information on legislation, call the Office of Legislative Affairs, at 904/488-6392.

INSURANCE REGULATION LEGISLATION

Sunset of Chapter 626, Agents Licensing (CS/HB 3621) CH. 90-363
Effective date: October 1, 1990; except as otherwise provided.

An insurance Sunset bill that reenacts and revises Chapter 626, Florida Statutes, Insurance Field Representatives and Operations. The chapter regulates all types of insurance agents, solicitors, and adjusters and also contains laws relating to unfair insurance trade practices, unauthorized insurers, surplus lines insurance, insurance administrators, and health care risk managers.

The major changes in the bill include the following:

(1) Single-license concept -- Presently, insurance agents and other licensed representatives receive a separate license for each insurer or other entity represented. Under the bill, only one license would be issued by the state and separate "appointments" would be made by insurers and other entities represented.

(2) Managing general agents (MGAs) -- The definition of an MGA, who in actual practice often exercises significant control over the operations and the solvency of an insurer, is much more specific, based on the model bill of the National Association of Insurance Commissioners (NAIC). The bill defines an MGA as one who produces premiums equal to or more than 5 percent of the surplus of an insurer and who either (1) adjusts or pays claims or (2) negotiates reinsurance on behalf of the insurer. Certain exceptions are provided. The bill then imposes specific requirements for contracts between insurers and their MGAs, which are designed to limit the powers of an MGA and to provide insurers with sufficient knowledge and control of an MGA's operations.

(3) Brokering (Exchange of business) -- Additional requirements are imposed upon insurers which accept business from agents they do not appoint. Any insurer accepting business under this method must report the name, address, and other information of each agent from which the insurer receives more than 24 personal lines risks per year and pay an annual $20 fee per agent. The bill provides that an MGA or insurer shall be liable to the insured for coverage arising under the policy and for the acts of the agent in producing that business. The MGA or insurer is also accountable to the insured for violations of the brokering law and for misappropriation of funds by brokering agents. Payment to the agent constitutes payment to the insurer, regardless of fraud on behalf of the agent.

(4) Rebating -- In 1986 the Florida Supreme Court declared as unconstitutional the statutory prohibition against agents rebating commissions to their customers. However, the court case did not clearly address other statutory provisions which were later interpreted by the Department of Insurance as restricting the practice of rebating. Consistent with the Department's interpretations, the bill prohibits agents from rebating except as follows: (1) the rebate must be in accordance with a rebating schedule filed by the agent with the insurer; (2) rebating must be uniformly applied so that all insureds who purchase the same policy through the agent for the same amount of insurance receive the same percentage rebate; (3) rebates may not be given to an insured with respect to a policy from an insurer that prohibits its agents from rebating commissions; (4) the rebate schedule must be prominently displayed in public

view with free copies available, and the agent must maintain a copy of all rebate schedules for five years; (5) the availability or amount of the rebate may not be based on the age, sex, place of residence, race, nationality, ethnic origin, marital status, occupation of the insured, location of the risk, or any other factor which is unfairly discriminatory; and (6) no rebate may be refused or granted based upon the purchase or failure to purchase collateral business.

(5) Banks selling insurance -- An exception was added to the general prohibition in s. 626.988 against insurance agents engaging in insurance agency activities on behalf of a financial institution. This section is amended to provide that if a federally chartered bank begins selling annuities in Florida, then state chartered financial institutions would also be permitted to do so. If the federal bank is enjoined in Florida from selling annuities, then state financial institutions would also be prohibited from selling annuities. This change was made in recognition of a recent opinion letter from the Office of the Comptroller of the U.S. Currency which stated that the federal law does not prohibit federally chartered banks from selling annuities and that federal law preempts provisions of Florida law that purport to prohibit a national bank from selling variable rate annuities. If this opinion is correct and federal banks are permitted to sell annuities in Florida, state banks would be at a competitive disadvantage if they were not also permitted to sell annuities.

(6) Auto insurance surcharges and nonrenewal -- Additional restrictions are placed upon auto insurers against surcharging or nonrenewing policies due to an accident. This bill provides that an insurer may not surcharge or nonrenew a policy due to an accident unless the insured was at fault. Also, an insurer may not refuse to renew a policy if the insured has had only one at-fault accident in the most recent 3-year period. However, an insurer would be permitted to nonrenew a policy if the insured has had three or more accidents, regardless of fault, during the most recent 3-year period. The bill also prohibits insurers from surcharging or nonrenewing policies because of any traffic infraction when adjudication has been withheld and no points have been assessed.

(7) Other changes -- The bill also requires all new licensure applicants to submit a set of fingerprints to the Department; authorizes the Department to bring a civil action on behalf of parties injured by an unauthorized insurer; creates a new licensure category for a customer representative who would work for an insurance agent and have limited powers to transact insurance; clarifies the authority that may be given by agents to non-licensed agency personnel; imposes additional responsibilities upon the primary agent designated in an insurance agency for the actions of employees in the agency; and specifies the requirements for allowing business to be placed in the surplus lines market rather than with an authorized insurer.

State Comprehensive Health Association (CS/CS/HB 3489) CH. 90-334

Effective date: October 1, 1990; except as otherwise provided.

Reenacts the State Comprehensive Health Association (SCHA) and renames the SCHA to be known as the Florida Comprehensive Health Association (FCHA). It revises the entities responsible for funding the deficit of the FCHA. The funding source placed in the bill expands the base for funding the program by including insurers offering minimum premium plans and stop-loss coverage, health maintenance organizations, multiple-employer welfare arrangements, prepaid health clinics and fraternal benefit societies. Insurers, as expanded by the terms of the bill, are required to pay up to a specified amount ranging from $15,000 to $700,000 depending on the insurer's premium volume.

The insureds are also required to take on a larger burden for funding the plan through increased premiums. There will be a three-level premium scale for low risk, medium risk, and high risk individuals. Beginning in 1991, low risk individuals will pay up to 200% of the standard risk rate, medium risk individuals will pay up to 225%, and high risk individuals will pay up to 250%. In 1992 and thereafter, these maximum rates increase to 200%, 250%, and 300%, respectively. The premiums charged for the different levels will be based on the individual's health condition and expected claims.

The make-up of the new board of directors of the FCHA has been revised to include three members: the Insurance Commissioner as the chairman, a policyholder representative and an insurer representative.

The bill also requires the FCHA to provide benefits patterned after these provided pursuant to the state group health insurance program. The board will be required to implement cost containment measures which may include contracting with a preferred provider network and a health maintenance organization system, preadmission certification, case management and negotiating purchases of medical and pharmaceutical supplies.

Motor Vehicle and Miscellaneous Insurance (CS/SB 2670) CH. 90-119

Effective date: October 1, 1990, except as otherwise provided

The significant motor vehicle insurance changes are as follows:

- requires a penalty ($32 fine) for failing, refusing or neglecting to make a timely accident report;
- provides failing to use a seat belt shall not be considered in mitigation of damages but rather may be used for consideration as comparative negligence in a civil action;
- exempts those vehicles that have a retail value of $1,500 in undamaged condition from being determined as unrebuildable and a total loss if the repair costs exceed 80 percent of the value;
- requires the vehicle identification number (VIN) on the proof-of-purchase auto insurance card;
- requires drivers who are convicted or plead nolo contendere to certain traffic offenses to take a driver safety education course;
- provides that all drivers involved in accidents are subject to the Financial Responsibility law, regardless of fault;
- provides that suspension of the license and registration for an unsatisfied judgment would not apply if the DHSMV determines that an insurer was obligated to pay the judgment upon which the suspension was based, but failed to do so;
- makes clarifying changes to comply with recent court interpretations of the Civil Remedy statute (s. 624.155) which allows an individual to bring a civil action against an insurer for certain violations;
- requires the Department of Insurance (DOI) to publish complaint ratios of motor vehicle insurers;
- allows insurers to impose a surcharge if the policyholder has three non-criminal traffic infractions within 36 months; (Present law allows a surcharge for two infractions within 18 months.)
- conforms the automobile insurance rating law (s.627.0651) to those used for other types of property and casualty coverage (s.627.062), to provide for refunds to policyholders if an insurer implements a rate increase later determined by the Department to be excessive;
- prohibits single zip code rating by auto insurance companies;
- disallows costs due to bad faith, punitive damages and other taxable costs associated with judgments which award punitive damages as expenses in an auto insurer's rate filing;
- authorizes a pilot study in a South Florida county that will designate the entire county as a single rating territory for personal injury protection (PIP) coverage. The Department will report to the Legislature in January of 1992 regarding the effect of implementing the program on a statewide basis;
- mandates a discount on bodily (BI), property damage (PD) and collision rates of motor vehicles equipped with anti-lock brakes, anti-theft devices and one or more air bags;
- amends the non-joinder statute to allow an insurer to be joined in a suit after the verdict, and prior to the judgment in a law suit;
- allows any named insured rather than all named insureds to select uninsured motorist coverage (UM);
- provides for binding arbitration of PIP medical payment disputes between insurance companies and health care providers;
- requires insurance agents to inspect a private passenger motor vehicle prior to the issuance of physical damage coverage, including collision or comprehensive coverage. Counties with a population of less than 500,000 are exempt;
- mandates language in policies to provide for pre-suit mediation of claims disputes;
- modifies laws relating to offer of judgment and demand for judgment;
- increases the penalty for falsifying an application for motor vehicle insurance from a second degree misdemeanor to a first degree misdemeanor;
- requires insurers in the state to submit to the Department a report showing the rate impact of this legislation two years after the effective date;
- authorizes a pilot study by the Department to study the feasibility of requiring certain forms of insurance to be made available by the office of each tax collector where motor vehicle registrations and license plates are sold.
- creates an exemption in the unfair insurance trade practices law relating to the insured's or applicant's failure to agree to place collateral business with any insurer by allowing an insurer writing umbrella liability insurance to require the policyholder to maintain underlying coverage with a particular insurer;

This bill also revises the information required to be contained in the annual reports issued by the Department; authorizes the Department to require insurers to provide audited financial statements based on statutory principles consistent with the insurance laws of the state of domicile; revises certain allowable investments; clarifies the valuation of certain assets; increases fees for service of process upon the department; revises certain notice requirements; requires certain life insurance policy forms to include a reduced paid-up nonforfeiture benefit; revises underwriting restrictions in the sale of credit life and credit disability insurance; deletes certain insurer reporting requirements; and specifies a delivery time for home warranty contracts.

This bill also provides exemptions from or revisions in application requirements, acquisition filings, annual filings and dissolution or liquidation proceedings relating to a service warranty association for manufacturers of products who sell warranties on those products which they manufacture. To qualify as a manufacturer for the purposes of the exemptions or revisions, an entity or affiliate thereof must: derive a majority of its revenue from the sale of a product which it manufactures; issue service warranties only for those products; be listed and traded on a recognized stock exchange; be listed in the National Association of Security Dealers Automated Quotation system; be publicly traded in the over-the-counter securities markets and be required to file specified forms with the United States Securities and Exchange Commission; if it maintains outstanding debt obligations they must be in the top four rating categories by a recognized rating service; have and maintain a minimum net worth of $10 million; and be authorized to do business in Florida.

Medicare Supplement Insurance (CS/HB 1575/1975) CH. 90-257
Effective date: July 2, 1990

Amends the provisions relating to Medicare Supplement insurance to comply with the Federal minimum standards as set forth in the National Association of Insurance Commissioners Model Act of 1989. The bill makes the following amendments to current law:

- deletes the list of benefits from statute and instructs the Department to promulgate rules establishing minimum policy standards and optional policy benefits consistent with Federal minimum standards;
- prohibits insurers from cancelling or refusing to renew for any reason other than nonpayment of premium or material misrepresentation without the approval of the Department;
- if a policy is replacing another policy, the replacing insurer is required to waive all time periods applicable to waiting periods, preexisting conditions, elimination periods, and probationary periods to the extent that the time was spent under the replaced policy;
- directs the Department to promulgate rules governing compensation arrangements between insurers and agents based on the guidelines set forth in the NAIC Model Regulations;
- requires insurers to establish marketing procedures to assure that agent comparisons of policies are fair and accurate and to assure that excessive insurance is not sold;
- requires agents to make every reasonable effort to determine the appropriateness of a purchase or replacement;
- prohibits insurers from knowingly making a misleading misrepresentation or incomplete or fraudulent comparison of a policy or insurer in an effort to induce a person to lapse, forfeit, surrender, terminate, retain, pledge, assign, borrow on, or convert a policy or to take out a policy with another insurer;
- prohibiting any marketing method having the effect of or tending to induce the purchase of insurance through force, fright, threat, whether explicit or implied, or undue pressure to purchase or recommend the purchase of insurance;
- prohibits the sale of a policy if the sale will provide the policyholder with more than one policy and if the coverage insures more than 100% of medical expenses covered.

Health and Miscellaneous Insurance (CS/SB 2794) CH. 90-249
Effective date: October 1, 1990

With regard to health insurance, the bill requires that for group policies that are discontinued (cancelled or nonrenewed), the policy must continue benefits for maternity expenses for a pregnancy which commenced while the policy was in effect. The discontinued group policy must also extend coverage for at least 90 days for dental expense in connection with treatment due to a specific accident or illness incurred while the policy was in effect. With regard to the individual conversion policy required to be offered by an insurer when an individual is no longer eligible for coverage under a group policy, the bill requires the insurer to offer benefits for maternity, dental, alcohol and drug abuse, and mental and nervous disorders if any of these benefits were provided in the group plan. Another change affecting health insurance is the requirement that if an insurer cancels a health insurance policy, the insurer must promptly return the unearned premium computed on a pro rata basis. If the insured cancels the policy, the earned premium is to be computed by the use of the short-rate table last filed with the state insurance department where the insured resided when the policy was issued.

The bill also allows a health insurer or HMO to offer a "basic policy' to an employer with fewer than 25 persons or to a group of such employers which would not be required to contain certain benefits otherwise mandated by law for health insurance policies. The policy would not have to include benefits and coverage for the coinsurance option (s. 627.6573), midwives and birth centers (s. 627.6574), prosthetic devices or reconstructive surgery incident to a mastectomy (s. 627.6612), ambulatory surgical centers (s. 627.6616), home health care services (s. 627.6617), acupuncture (s. 627.6618), mental and nervous disorders (s. 627.668), and alcoholism and drug abuse (s. 627.669). However, the insurer would have to offer all of the above coverages as an option to the employer for an appropriate additional premium.

The bill also amends the commercial property and casualty excess profits law to have it apply to "earned premiums" rather than "direct earned premiums" in order to allow an insurer to exclude premiums that are ceded to a reinsurer.

Other changes include authorizing the Department to waive the deposit requirement for foreign insurers for good cause; exempting statutory legal reserves on annuities maintained by insurance companies from the intangible tax; authorizing medical malpractice self-insurance trust funds to reasonably invest trust funds; strengthening the requirements for commercial self-insurance trust funds by allowing the Department to limit the premium writings and requiring that the sponsoring trade association to be a bona fide association that does not discriminate against members that do not buy insurance; providing that any deviation for an insurer approved by the Department for a workers' compensation insurer would be the maximum deviation and that the actual deviation could be determined on a risk by risk basis; providing certain exceptions from the annual rate filing requirements; and extending the repealer date of provisions for a restrictive license to practice medicine for certain persons who have been educated or trained in a foreign country.

Solvency (CS/SB 2764) CH. 90-248
Effective date: October 1, 1990

Allows for the reduction in the cost of insurer examinations under certain circumstances; revises the time period for the replacement or reevaluation of certain assets; revises the factors determining when an allied lines company must file an acquisition application with the Department; removes a requirement that the Department mail a notice to the domestic insurers specifying reciprocal states; clarifies the offset of reinsurance for the purposes of liquidation; allows certain captive insurers to receive a property and casualty license with a lesser surplus as to policyholders requirement; and allows HMO's to provide excess insurance to self-insurers and to contract out their health care provider network to other persons.

This bill also amends s. 627.736 in the Florida Motor Vehicle No-Fault Law, to eliminate the requirement that a physician licensed under the same chapter as the treating physician prepare the report required by this section prior to an insurer withdrawing payment of a personal injury protection (PIP) claim of a treating physician. In addition, s. 627.7295 is rewritten to clarify under what conditions a motor vehicle insurance contract may be issued for a term of less than six months and the exceptions to the prohibition against a policy being cancelled by the insured during the first two months. This section is amended to also permit general lines agents to charge a $10 per-policy fee under certain circumstances when selling a motor vehicle insurance policy with minimum required coverage.

Healthy Kids Act (CS/CS/SB 2196) CH. 90-199
Effective date: July 1, 1990

Establishes the Florida Healthy Kids Corporation for the purpose of securing preventive health services for school children and grouping school children for health insurance coverage.

The Department's desire is to increase access to health care services and improve children's health by reducing the incidence and costs of childhood illness.

Florida Workers' Compensation Insurance Law (CS/HB 3309)

CH. 90-201 Effective date: July 1, 1990; except as otherwise provided

1. Creates a Bureau of Workers' Compensation Insurance Fraud within the Department of Insurance.

2. Creates a 5-member Industrial Relations Commission (IRC) with orders reviewed by appeal to the First District Court of Appeal.

3. Creates a Division of Safety within the Department of Labor and Employment Security.

4. Various definitions are amended or added to tighten the meaning of the terms:

Accident, Carrier, Department, Employee, Employment, Wages, Individual Self-Insurer, Domestic Individual Self-Insurer, Foreign Individual Self-Insurer, Insolvent Member, and Insolvency.

In redefining the term "wages", all fringe benefits are deleted except housing, gratuities received in the course of employment from others than the employer (tips) and which are reported as taxable income, and employer contributions for health insurance. Additionally, outside or concurrent employment is not included in wages.

5. Amends the "coverage" provision so as to provide that no compensation is payable to an injured worker if the worker has a .10 percent or more alcohol level or positive confirmation of a drug as defined in the drug-free workplace program requirements.

Provides compensation shall be reduced by 25% if the injury is caused by the knowing refusal of the employee to use a safety appliance which the employer provided to the employee. Currently, the statute provides compensation shall be reduced by 25% if the injury is caused by the willful refusal of the employee to use a safety appliance which the employer provided to the employee.

6. Creates the drug-free workplace program. Provides standards and methods for drug testing.

7. Creates a provision to deny compensability to:

(1) An employee injured during recreational or social activities unless the activities are an expressly required incident of employment and produce a substantial direct benefit to the employer beyond improvement in employee health and morale that is common to all kinds of recreational and social life;

(2) an employee who suffers an injury while going to or coming from work whether or not the means of transportation was also available for the exclusive personal use by the employee, unless the employee was engaged in a special errand or mission for the employer;

(3) an employee who deviates from the course of his employment unless such deviation is expressly approved by the employer or is an emergency which is designed to save life or property;

(4) a traveling employee who suffers an injury during travel status while on a personal mission; and

(5) an employee injured in subsequent intervening accidents which are not work-related even through there is some casual connection to the original injury except for employees who are injured while seeking medical care for their compensable injury.

8. If a general contractor is required to pay benefits to an employee of a subcontractor who agreed to provide coverage to said employee, the general contractor will have the right to sue the subcontractor to recover all amounts paid plus interest. In addition, the subcontractor would be subject to a third degree felony for any false or misleading statement.

9. Amends the law such that the first 7 days of indemnity benefits are not payable unless the injury results in disability of more than 21 days. (Currently the law contains a 14 day threshold.)

10. Provides no health care provider may refer the employee to another health care provider. diagnostic facility, pain program, work hardening program, therapy center, or other facility without the prior authorization of the carrier or the employer if self-insured, except in cases where emergency care is required.

Provides that no employer, carrier, self-insurer, health care provider, or rehabilitation provider shall refer an injured worker for medical care, rehabilitation, or other services to any entity in which he has a financial or ownership interest, without disclosing to the employer and employee in writing the nature of such interest prior to the referral.

Requires medical provider to advise the employer or carrier of any treatment rendered within 14 days of the first treatment and within 14 days following the date of MMI or the date of final treatment.

Revises attendant care (professional or nonprofessional custodial care) so that a physician must direct and control the home or custodial care. Family members are not to be paid for custodial care unless prescribed by a physician with particularity and perform services which go beyond the scope of household duties normally performed gratuitously. Custodial care is defined. Also, clarifies the 12-hour per day language.

When there is a disagreement in the opinions of health care providers; if two health care providers have determined that there is no medical evidence to support the claimant's complaints; or if two health care providers agree that the employee is able to return to work then the injured employee may be evaluated by an appropriate health care provider appointed by a judge of compensation claims. Creates a blind rotation system to be established by the Division for the selection of the appropriate health care provider. Ties the 21-day rule to the notice of completion of the evaluation.

Eliminates the exclusive use of Health Care Cost Containment Board data in determining the schedule for hospital charges.

Mandates that the three-member panel shall adopt a fee schedule for charges of hospitals, ambulatory surgical centers, and work hardening programs.

11. Authorizes one or more pilot programs for medical, hospital, and remedial care in workers' compensation cases.

Bail Bondsmen and Runners (HB 3589) CH. 90-131

Effective date: October 1, 1990

Clarifies the responsibilities of persons subject to Chapter 648, F.S., and equips the Department and the criminal justice system with additional authority to eliminate abuses in the bail bond system.

The bill codifies the bail bond industry practice of maintaining build-up funds in a trust account and remitting build-up funds to bondsmen upon termination of their contract and discharge of liabilities. Build-up funds are monies collected as a percentage of the premium paid for a bail bond and maintained to pay a bond in the event of forfeiture.

The Bail Bond Regulatory Board is renamed as the Bail Bond Advisory Council. The name change reflects the removal of the existing boards' authority to perform a number of administrative functions. The council will continue to review Chapter 648, F.S., for proposed legislative changes. However, the council will no longer; approve correspondence courses and forms; review bail bond rate filings; or, make determinations of probable cause in bondsmen disciplinary hearings. The department will be solely responsible for prosecution of disciplinary cases, as well as other duties previously delegated to the board.

Examination procedures are revised to require that the examinations for bail bondsmen be held near the applicant's place of residence and that the examination fee not be subject to refund. Reexamination procedures are created to allow applicants who have failed to make a passing grade or failed to appear for an examination to take additional examinations.

Insurers who appoint bail bondsmen are required to file a sworn statement stating what investigation has been made concerning the appointee and what the appointing insurer's opinion is of the proposed appointee's moral character, fitness and reputation.

Bail bondsmen are prohibited from making any statements or representations to a court unless made under oath. Statements and representations not made under oath are considered to be third degree felonies.

Additionally, bondsmen are prohibited from using collateral security for personal benefit or gain. Collateral security, generally in the form of cash, cars, or other valuable items, are required to be returned in the same condition received. Cash received as collateral in an amount in excess of $5,000 is to be immediately forwarded by the bondsman to the managing general agent or insurer for safekeeping.

Persons who engage in any transaction or business for which a bail bondsman license is required and who have had their license suspended or revoked are guilty of a third degree felony.

The administrative fine provisions are revised to reduce the maximum administrative fine from $1,000 to $500, except in the case of willful violations which are subject to fines of up to $2,500.

The Department is authorized to initiate proceedings for an injunction in the circuit court and apply for temporary and permanent orders necessary to restrain persons from committing violations of Chapter 648, F.S.

STATE FIRE MARSHAL LEGISLATION

Florida State Fire College (CS/SB 2772) CH. 90-189

Effective date: October 1, 1990

Expands the authority of the Department's Division of State Fire Marshal to enter into agreements with public or private school districts, community colleges, junior colleges, or universities and to apply for federal and state grants to supplement funding for the Florida State Fire College.

The State Fire Marshal is required to develop a staffing and funding formula and the collection of data for the purpose of preparing the Fire College for classification as a specialized state educational institution pursuant to Chapter 242. These requirements are placed on the Fire Marshal in an effort to make the Fire College a self supporting unit without the necessity of having funds appropriated through the Insurance Commissioner's Regulatory Trust Fund.

Fire Prevention and Control (CS/HB 2293) CH. 90-359
Effective date: July 7, 1990

Clarifies the application of the department's uniform firesafety standards to "transient" public lodging establishments, including hotels, motels, and similar facilities as defined by Chapter 509, F.S.

Applicants for licenses or permits for the servicing, recharging, repairing, testing, marking, inspecting, or installing fire extinguisher and preengineered systems submitted to the State Fire Marshal or applicants as contractors under this chapter are allowed to take an exam for any license no more than four times in one year. Applicants who fail to pass the examination within one year after the application date must file a new application, pay the application and examination fees and complete the required course prior to being allowed to retake the examination.

The bill prohibits persons from falsely impersonating to be the State Fire Marshal, an agent of the Division of State Fire Marshal, a firefighter, or firesafety inspector.

Firefighters convicted of a misdemeanor relating to misleading or false statements will be subject to revocation of their certificate.

The Division of State Fire Marshal is required to approve instructors as well as institutions and facilities used for training firefighters and firefighter recruits.

The bill repeals provisions requiring the State Fire Marshal and Department of Education to jointly prepare rules for safety inspections of facilities under the administration of district school boards and of community college boards of trustees.

L.P. GAS LEGISLATION

L.P. Gas Sales/Requirements (CS/SB 2568) CH. 90-215
Effective date: July 1, 1990

Revises provisions relating to the sale of liquified petroleum gas, Chapter 527, F.S. The bill clarifies certain definitions and identifies different categories of L.P. gas dealers, dispensers, operators, installers, requalifiers of cylinders, and fabricators, repairers and testers of vehicles and cargo tanks. It increases the license fees and requires the annual registration of each L.P. gas bulk delivery truck which is used for transportation of L.P. gas. The Department is authorized to inspect vehicles used for sale, storage, transportation repair or installation of L.P. gas. The bond requirement for licensure is increased from $100,000 to $300,000 and the maximum penalty for a violation of the laws governing L.P. gas is increased from $1,000 to $3,000.

TREASURY LEGISLATION

Treasury Bill (CS/CS/HB 1413) CH. 90-357
Effective date: July 7, 1990

The bill makes several changes to state law pertaining to the duties and responsibilities of the State Treasurer with respect to securities and deposits held by the Treasurer, copies of documents held by or submitted to the Treasurer, and the Security for Public Deposits Act (which protects public funds held by financial institutions). The bill permits the Department to invest in a wider variety of investments. The bill deletes obsolete language relating to perquisites of public officers and monthly accounting statement of fees.

SUMMARY OF LICENSED COMPANY ACTIVITIES FOR FISCAL YEAR 1989-1990

sted below are those insurance companies licensed in Florida that were licensed during the fiscal year 1989, those ımpanies that withdrew from Florida, those that were purchased by or merged with other companies and those that ıanged their name during the fiscal year. MUNICIPAL POLICE OFFICERS' RETIREMENT TRUST FUND
EXCISE TAX DISTRIBUTION

Chapter 185, Florida Statutes, provides that each incorporated Florida municipality may impose an excise tax on insurance companies of .85 percent of its casualty insurance premiums written within the limits of the municipality. The purpose of this tax is to provide a retirement fund for the municipalities' police officers. The following excise taxes were collected and allocated to the participating cities' fund for the calendar year 1989:

Apopka	$113,658.72
Arcadia	35,379.60
Atlantic Beach	40,058.73
Atlantis	6,121.34

MUNICIPAL FIREFIGHTERS' PENSION TRUST FUND
EXCISE TAX DISTRIBUTION

Chapter 175, Florida Statutes, provides that each incorporated Florida municipality may impose an excise tax on insurance companies of 1.85 percent of its property insurance premiums written within the limits of the municipality. The purpose of this tax is to provide a pension fund for the municipalities' firefighters. The following excise taxes were collected and allocated to the participating cities' fund for the calendar year 1989:

Apopka	58,889.49
Arcadia	18,622.38
Atlantic Beach	14,483.16
Auburndale	21,684.60

PREPAID COLLEGE BOARD

The Florida Prepaid College Board was established by the 1987 Legislature to provide a means through which many of the costs associated with a college education may be paid in advance at a rate lower that the corresponding rate at the time of enrollment.

The program's second year of operations was a successful one in which many milestones were reached and the program witnessed much broader acceptance of its concepts and ideals.

A total of 46,563 prepaid tuition and dormitory contracts were sold this year, for a total of slightly more than 105,000 sold during the program's first two years. These results make the Florida Prepaid College Program the largest of its kind in the country.

The program enters its third year with continued financial stability. As a result of the Board's initial investments, we were able to repay, on July 20, 1989, a $600,000 loan from the Department of Insurance. These were the funds used for start-up expenses covering the costs of initial operation. This loan wasn't scheduled for repayment for another two years.

Several changes were implemented this year to add more flexibility to the program and to enhance its funding. The 1989 Florida Legislature authorized the Board to establish a Direct Support Organization under Board auspices, called the Florida Prepaid College Foundation, Inc. The Foundation was incorporated on November 21, 1989. The purpose of the Foundation is to administer a scholarship program to provide prepaid postsecondary tuition scholarships to low income and other at-risk students who may not otherwise be able to afford a college education.

To kick-off the new Foundation, on December 13, 1989, Governor Bob Martinez announced his legislative proposal: The Florida Prepaid Tuition Scholarship Program. The 1990 Legislature enacted the program into law and appropriated $1,272,000 to the Foundation to be equally matched by private sector contributions. The total of $2.5 million will fund 670 prepaid four-year college scholarships statewide. The program will offer prepaid college tuition scholarships to young students in grades 7 to 12 with academic potential who are determined by local school officials to be high-risk dropout candidates based on economic and other factors.

Three key modifications in the program's rules were made this year to provide more flexibility for all of Florida's residents while planning for their children' educations. One of the changes waives the residency requirement for beneficiaries with divorced parents. Another change allows a refund, with interest, for students receiving scholarships or for purchasers whose designated beneficiary dies or becomes disabled. Finally, more generous refund provisions were made for purchasers converting plans at matriculation.

GEOGRAPHICAL DISTRIBUTION

The geographical distribution of the number of contracts sold mirrors the population base of the state. The Miami area remains the location with the largest number of contractual sales. Tampa/St. Petersburg is second, with Orlando and West Palm, third and fourth, consecutively. The most popular plan continues to be the four-year university plan. Nearly 74 percent of the 79,373 tuition contracts sold during the program's first two years were four-year university contracts. Of the 22,268 dormitory contracts purchased, nearly 37 percent were for one year of dormitory expenses. Nearly 36 percent of all dormitory contracts sold were for two years of residence.

REVENUES

The financial commitment of all plan types and payment options purchased this year is just over $192 million, for a total commitment of $423 million for fiscal year ended June 30, 1990. Approximately $75.7 million was collected during this fiscal year for the two enrollment periods.

Purchasers may either pay the entire value of a contract with one lump-sum payment, or they may select installment payments over either a five-year payment schedule or a monthly payment schedule that will terminate with the enrollment of the beneficiary in a postsecondary institution. The majority of purchasers, nearly 50 percent, have chosen the monthly payment plan. Twenty-three percent have chosen the lump sum option.

BUDGET INFORMATION

For fiscal year 1989/90 the Florida Legislature appropriated $1,110,996. This appropriation includes funding for six full-time staff positions and other operating expenses. This budget includes $596,000 used for radio television advertising intended to expand public awareness of the program. The following is an itemization by appropriation category for use of these funds for the 1989/90 fiscal year:

1989/90 EXPENDITURES

Appropriation Category	Amount
Salaries	$ 221,151
Other Personal Services

Operating Capital Outlay	0
Data Processing Services	1,604
TOTAL	$1,110,996

DEFERRED COMPENSATION

Background Statement

Florida Statute 112.215 authorized the establishment of the State Employee's Deferred Compensation Plan. The Plan began in 1982 and has grown into one of the State's finest employee benefits. This statute directs that an advisory council provide policy guidance to the Treasurer who is charged with administering the daily activities of the plan. Approval of the State Board of Administration is required on major policy issues. The purpose of the Plan is to provide State employees with an opportunity to establish a self-funded supplemental retirement account that accumulates value on a tax deferred basis. Department of Insurance Rule 4C-6, which governs the Plan, has been promulgated in accordance with Internal Revenue Code 457.

Enrollment is open at all times to any State employee paid from a regular salary appropriation. All assets in the Plan, property rights purchased with those assets, and all income attributable to those assets are wholly owned by the State, subject only to the claims of the State's general creditors. Participants' rights under the Plan are equal to those of general creditors of the State in an amount equal to the fair market value of the deferred account balance for each participant. Funds are taxed as ordinary income upon receipt by the participant. Participants' access to the funds is restricted by Plan Rules.

The State has no liability for losses under the Plan, but does have a duty of due care as would be ordinarily required of any prudent investor. The State accounts for this Plan in an Agency Fund and believes that it is unlikely that it will ever use these assets to satisfy the claims of general creditors. Assets total approximately $223 million and there are over 34,000 participant accounts. Over $3 million are deposited by payroll deduction in the Plan each month.

One of the most distinguishing features of the Plan and keys to its remarkable success, is its exceptional variety of high-quality low-cost investment options. Participants are offered an array of 60 investment choices from seven competitively selected companies (Aetna Life Insurance and Annuity Company, Great American Reserve Insurance Company, Great-West Life and Annuity Insurance Company, Nationwide Life Insurance Company, Security First Life Insurance Company, Great Western Bank, and T. Rowe Price and Associates). The investment selections range from guaranteed fixed to variable rate products. The rates of return, considering the level of risk and nominal expense factors, are some of the most favorable to be found throughout the industry.

DIVISION OF INSURANCE CONSUMER SERVICES

The Division protects, assists and informs the insurance buying public through its programs of (1) developing and distributing insurance buyer guides, establishing consumer awareness programs and making news releases; and (2) handling consumers' insurance complaints, claims and inquiries. This division is comprised of the Bureau of Consumer Outreach and Education and the Bureau of Consumer Assistance, whose functions are briefly described as follows:

BUREAU OF CONSUMER OUTREACH AND EDUCATION:

Collects, organizes and distributes to the public, information relating to the role of the Insurance Commissioner and the Department of Insurance, the several types of insurance available in the market place and consumers' responsibilities when purchasing insurance products.

CONSUMER BROCHURES AVAILABLE AS OF JUNE 30, 1990

- Commercial Insurance Consumers' Guide
- Health Maintenance Organization Consumers' Guide
- Health Insurance Shoppers' Guide
- Insuring Your Home: An Insurance Shopper's Guide
- Insurance Survival Guide (General Information)
- Life Insurance and Annuities Consumers' Guide
- Medicare Supplement Insurance Shoppers' Guide
- Before the Storm: The Insurance Consumers' Hurricane Checklist

Small Business Owner's Guide

BUREAU OF CONSUMER ASSISTANCE:

Provides service to individual consumers through the proper enforcement of insurance policies and the Florida Statutes and Rules governing the insurance industry and its representatives. These functions are administered through the use of a statewide, toll-free Hotline Unit in Tallahassee, the Tallahassee Office, and ten service offices, identified as follows:

TOLL-FREE HOTLINE

1-800-342-2762

During Fiscal Year 1989-90, 176,088 calls were received on the Consumer Toll-Free Hotline.

DIVISION OF STATE FIRE MARSHAL

The Division of State Fire Marshal is responsible for a variety of activities that involve the protection of life and property from the ravages of fire. Florida Statutes, Chapter 553, "Manufacturer, Distribution and Use of Explosives"; Chapter 633, "Fire Prevention and Control"; Chapter 806, "Arson"; and Chapter 554, "Boiler Safety Act", govern the Division's major areas of responsibility.

The Division operates four bureaus and one section. The Bureau of Fire and Arson Investigations responds to requests from agencies for investigations of fires which occur under suspicious or undetermined circumstances. The Bureau of Fire Prevention promulgates rules governing fire safety and reviews plans for and inspects state-owned and -leased buildings to assure compliance with fire codes. The Bureau of Explosives and Fire Equipment regulates fire equipment dealers, fire protection contractors and explosives handlers. The Bureau of Fire Standards and Training provides training and certification for fire fighters. The Fire Incident Reporting Section receives and compiles data on fires from fire departments throughout the state. Staff from these bureaus are located in seven field offices and the State Fire College in Ocala.

The mission of the Division can be accomplished through assistance to and involvement in the fire service community to ensure protection of the citizens of Florida.

SECTION OF FIRE INCIDENT REPORTING

The primary mission of the Florida Fire Incident Reporting System (FFIRS) is to provide the State Fire Marshal with data documenting causes of fire in Florida to determine future fire prevention activities. This mission is accomplished by using standardized computer software, National Fire Protection Association 901 codes, and the standard data format of the National Fire Incident Reporting System.

Last year, we processed 450,000 incidents, an increase of 8.3 percent over 1988 and the largest number of reports ever processed. Incident reports are received on paper forms (226,000), magnetic tape (164,000) and diskette (60,000). An increase of departments reporting on diskette and tape is anticipated.

The 1989 State Fire Marshal Annual Report, "Florida Fires", was well received, with many requests for additional copies.

Major improvements were made to our data processing system. We now have direct access to the main frame, allowing us to upload daily, rather than delayed as time allowed. Access to the main frame has given us the ability to retrieve a wider variety of data. Previously, FFIRS was only able to retrieve selected output reports, such as a list of the number of people injured in fires. Now we are able to request any combination of variables. For example, we can request why were people injured in fires when a working smoke detector was present. Using our Answer/DB program, we learned that over half of the people were injured in these fires because they tried to put out the fire instead of leaving the building.

BUREAU OF FIRE AND ARSON INVESTIGATIONS

The violent crime of arson is a concern of all Florida citizens due to the potential loss of life and destruction of property. The Bureau's work load increased 154% from 1979-80 to 1989-90 fiscal year. The average dollar loss per arson case for the 1989-90 fiscal year was $19,780.05. In 1974 it was less than $10,000 per case. During 1989-90, the Bureau responded to 4,419 investigations.

Among the Bureau's improvements is the construction of two additional Mobile Fire and Arson Investigation Units, completion of the state wide radio communications system, automation of the headquarters and field records with computers. Construction of a $1,625,000 Fire & Arson Laboratory complex and initiation of 24-hour service office in the Tallahassee headquarters office. The new laboratory is located near Tallahassee and will be staffed with five chemists.

The Mobile Fire and Arson Investigation units are constructed similar to a heavy rescue unit, but the design is specifically for equipment to perform extended investigation fires. The units have a portable gas chromatograph, video recording equipment, various electronic hydrocarbon detectors, portable lighting, power generators, power tools, etc. The unit is utilized on large fire losses. A team from the Bureau responds with the unit and integrates with local investigative authorities. A unit will be assigned to three regions, South, Central and North.

Two additional field offices located in Daytona Beach and Pensacola were opened last year. An additional office is anticipated in Ocala this year. All ten field offices have on-line computers. This permits the storage and cross referencing of names, addresses. etc., of persons having multiple fires in Florida. The computer system permits reports to be generated and transmitted by computer. This improves management of the Bureau's administrative activities, improves and increases information available to investigators and reduces cost. The Bureau is presently working on the automation of fire/arson investigation reports. The report will be generated by the field offices and forwarded to Tallahassee by computer.

The Bureau received funding from the legislature for construction of a State Forensic Arson Laboratory. The Bureau received approval from the Leon County School Board to sublet land and construct the laboratory at the Lively Law Enforcement Training Facility, in Gadsden County. Construction began on June 19, 1989, and the laboratory is scheduled for occupancy on November 8, 1990.

The Bureau has a toll free telephone number (1-800-638-3473) for agencies to call for investigations. The Bureau has also initiated a 24-hour service office in Tallahassee. A duty officer will be assigned after normal working hours to receive calls, notify investigators, etc. The 24-hour operation is anticipated to be operational before the end of 1990.

BUREAU OF EXPLOSIVES AND FIRE EQUIPMENT

The Bureau of Explosives and Fire Equipment is responsible for the administration and enforcement of Florida Statutes governing licensing, regulation, examination and training of fire equipment dealers, fire equipment permit holders, and fire protection system contractors.

The bureau's primary function is to safeguard the lives and property of the citizens of Florida through the enforcement of laws and rules regarding explosives, boiler safety and fire protection equipment.

As the regulatory agency for these four programs, the bureau inspects boilers for compliance with safety requirements; investigates for proper installation and servicing of portable fire extinguishers and fire suppression systems; and investigates for illegal actions by any fire protection systems contractor.

In addition, the bureau registers all manufacturers, distributors, wholesalers, retailers of sparklers; and licenses and permits all manufacturers, distributors and users of explosives.

During 1989-90, the Bureau of Explosives and Fire Equipment processed 22,238 licenses, permits, certificates, registrations, inspection reports and examinations. Additionally, investigators conducted 1750 investigations and inspections as well as conducting statewide training courses recertifying 301 fire equipment permittees. Deputy Boiler Inspectors conducted 4844 inspections of uninsured boilers. The Bureau registered 882 seasonal retailers of sparklers and 5766 retailers and retail locations of sparklers.

The Bureau has 18 full-time positions to serve the state. Special Investigators for the dealer and contractor programs are assigned to the Tallahassee, Jacksonville, Orlando, Tampa, West Palm Beach, and Fort Lauderdale Service Offices. Deputy Boiler Inspectors for the Boiler Safety Program are located in Tallahassee, Jacksonville, Orlando and West Palm Beach.

BUREAU OF FIRE PREVENTION

The duties and responsibilities of the Bureau of Fire Prevention are set forth in Chapter 633, and Sections 255.25, 393.067, 394.879, 396.176, 400.441, 509.215, and 526.141, Florida Statutes. These include the following:

a. Prevention of fires.

b. Storage, sale, use, keeping, manufacture, handling, or other disposition of combustibles, flammables, carbide, and crude petroleum or any of its products; and the State Fire Marshal may prescribe the material or receptacles and building to be used for such purpose.

c. Installation, maintenance and performance tests of electronic fire warning and smoke detection systems, including pressurized air-handling units.

d. Establishment of uniform fire safety standards for all new, existing and proposed state-owned and state-leased buildings, hospitals, nursing homes, adult congregate living facilities, correctional facilities, public lodging establishments, public food-service establishments, elevators, migrant labor camps, mobile home parks, recreation vehicle parks, residential and nonresidential child care facilities, and self-service gasoline stations, of which standards the State Fire Marshal shall be the final administrative interpreting authority.

e. Inspection of state-owned or state-leased buildings on a recurring basis, not later than every two years, and to ensure that "high-hazard" occupancies are inspected at least annually for the purpose of ascertaining and causing to be corrected any conditions liable to cause fire or endanger life from any violation of the fire safety standards for state-owned or state-leased buildings.

f. Review of building construction plans and the conduct of site inspections for compliance with fire safety standards.

g. Serve (through the Division Director and the State Fire Marshal) as the final administrative interpreting authority of the state's fire safety standards.

h. Serve as a "service bureau" for architects, engineers, fire protection officials and others. This includes serving as a central reference point and source of information, interpreting technical provision, sponsoring symposiums, conferences, and in-service training etc., on fire related matters.

i. Maintain comprehensive records, including copies of fire safety inspection reports of each state-owned and state-leased facilities.

The Bureau is responsible for five functional operations within the Division of State Fire Marshal. These areas include fire protection and code enforcement, plans review, performance tests for electronic fire warning equipment and pressurized air handling units, fire protection codes and standards administration and fire protection technical services.

In the area of fire protection and code enforcement, the bureau is charged with the responsibilities to conduct annual fire safety inspections of high hazard properties such as prisons, juvenile detention centers, mental institutions, etc., and to complete a fire safety survey of other state-owned and state-leased facilities at least once every two years. Three Fire Protection Specialist Supervisors and 18 Fire Protection Specialists are located in nine field offices state-wide and assigned the task to handle the bureau's statutory mandates. Fire Protection Specialists inspected approximately 11,500 buildings during fiscal year 1989 - 90. This figure reflects 100% inspection completion of all "high hazard" properties and approximately 83% of other statutory mandates, including special projects assigned to the bureau due to request for assistance by other governmental agencies with fire safety responsibilities and complaints by citizens due to the state's increase in population and fire safety awareness.

Code Enforcement continues to be a significant activity for the bureau. Fire Protection Specialist Supervisors and their staff have coordinated with agencies responsible for correcting fire code violations and achieved remarkable results. They have not submitted any cases to the Bureau Chief or the division's executive staff for legal action during the fiscal year. They continue to monitor the State University System for strict code enforcement and compliance with fire protection codes and standards. This process maintains the agreement between the Treasurer and Chancellor to place top priority on correcting fire code violations in university properties, with special emphasis on student living facilities.

The Plans Review Section continues to be a significant operation within the bureau. The section was staffed with a supervisor, seven professional employees and one support staff person during the 1989 - 90 fiscal year. During the fiscal year, a monthly average of over 101 plans were reviewed for compliance with fire protection and safety standards. A total of 1217 plans were reviewed by the staff, representing 100% compliance with statutory mandates. This section also conducted site inspections during building construction or renovations prior to the issuance of certificates of building occupancy. The site inspections often revealed fire deficiencies and allowed staff to point them out to architects, engineers and the contractor. This resulted in "on the spot" corrective action, thereby saving the state millions of dollars in "after the fact" construction costs. The section was able to achieve an established goal of reducing plans review projects turn-around time by one day through the use of computers. They were also helpful in providing special technical assistance to individuals, design professionals, fire and building officials and others involved with complex fire protection projects, saving the public millions of dollars.

The conduct of performance tests for electronic fire warning and smoke detection equipment and pressurized air handling units is the responsiblity of the Electronic Fire Warning Equipment Section. The section is supervised by a Fire Protection Specialist Supervisor and staffed with six Fire Protection Specialists (special background in electronic fire warning systems) and a support staff employee. The section conducted performance tests in 1,720 properties in fiscal year 1989-90. This represents an accomplishment of over 60% increase in statutory duties over the previous year. The section is involved with assisting plans review in reviewing plans with complex electronic fire warning systems and conducting site inspections as a team prior to building occupancy.

The electronic fire warning section was also responsible for identifying fire alarm contractors who violated state fire safety standards for alarm systems installed in state-owned projects. The section reports such findings to the Department of Professional Regulations for their review and further disposition.

Section 633.01, Florida Statutes, provides that the State Fire Marshal shall make and promulgate all rules necessary to implement the provisions of Chapter 633 entitled "Fire Prevention and Control". Other provisions require updating of rules or the development of new standards. This function is viewed as fire protection codes and standards administration. The bureau has been involved with the division's office in a comprehensive review and rewrite of Chapter 4A, Florida Administrative Code, known as the State Fire Marshal's Rules. Over 25 rule chapters were repealed and seven rewritten and adopted during fiscal year 1989-90. The complete rewrite and adoption of the remaining rule chapters are expected to be complete by December 1990.

Supervisors, Engineers, and Fire Protection Specialists have provided technical assistance to fire and building officials, other state agencies, local governments, design professionals and the general public on questions and subject matters pertinent to fire protection and safety. In the more severe cases, bureau staff has taken the full responsibility in identifying problems and implementing code enforcement. This process serves as a valuable fire protection technical service to all needing the help and expertise within the bureau.

A significant bureau objective in fiscal year 1989-90 was to develop and implement an in-service training program for professional and support staff employees. This objective would be in keeping with the department's goal "to promote employee excellence and teamwork." Prior to the ending of the fiscal year, the program was implemented and two of five training sessions were completed. The training sessions enhanced professional development amoung staff and allowed support staff employees to understand technical terms and assist professional staff in the response to questions and complaints presented to the bureau. Professional staff employees also earned contact hours from the training that will be used toward recertification when needed. The program will continue into the next fiscal year and will be a significant part of the bureau's ongoing programs.

DIVISION OF LIQUEFIED PETROLEUM GAS

The Division of Liquefied Petroleum Gas is responsible for the administration and enforcement of Chapter 527, Florida Statutes, entitled "Sale of Liquefied Petroleum Gas." The Division is charged by this statute to enforce laws and regulations in the interest of public safety where LP gas is stored, transported, distributed and utilized. The Division's public responsibility for LP gas safety begins when the product enters state borders and continues until the product is safely consumed by the public.

Chapter 527, Florida Statutes, provides for state regulation of a highly technical and widely used commodity--liquefied petroleum gas. The unique characteristics of liquefied petroleum gas require a high level of expertise and special laws and regulations. The enforcement of the provisions of this law is essential for the public welfare for protection against loss of property, health and life by fire or explosion. The provisions of Chapter 527, Florida Statutes, insure that only competent persons engage in the business and that compliance with acceptable safety codes and standards is achieved.

Chapter 527, Florida Statutes, provides for rule making by due process. Under this provision, the Division adopts National Fire Protection pamphlets for safety. These national standard codes provide the safety guide for the storage, handling and utilization of liquefied petroleum gas, and enforcement of these codes is the responsibility of the Division of Liquefied Petroleum Gas Inspectors.

The Division has been certified by the Federal Office of Pipeline Safety to enforce the Pipeline Safety Act as it applies to liquefied petroleum gas pipelines. The Pipeline Safety Program, through a federal grant, is financed on a 50/50 basis by the US Department of Transportation. Personnel of the LP Gas Division organize and present safety seminars and workshops on subjects dealing with safety practices wherever LP gas is involved. They also serve local authorities as experts in the field of code interpretation and acceptable LP gas safety practices.

The Division rules on the acceptability of proposed plans for the installation of bulk LP gas storage. The Division's inspectors follow-up with on-site inspections of these installations to assure compliance with adopted safety standards. In addition, Division inspectors routinely inspect all installations where LP gas is sold. There are over 3,600 licenses issued annually through the Division of Liquefied Petroleum Gas. License revenue is the prime source of the LP gas safety enforcement budget. During fiscal year 1989-90, there were 18 full-time and one part-time position assigned to this Division to serve the state. Personnel are located in Tampa, West Palm Beach, Orlando, Jacksonville and Tallahassee.

The Division's responsibility is to promote LP gas safety in the State of Florida for the protection of the public health, safety and welfare.
